Molded Plastic: **Bedroom**

Molded Plastic Furniture covers a wide variety of applications, uses and environments.

- CORRECTIONS
- BEHAVIORAL HEALTH
- SCHOOLS & UNIVERSITIES
- LAW ENFORCEMENT
- CAMPS, PARKS & RECREATION
- ANY HEAVY-USE ENVIRONMENT
Molded Plastic: Bed

Intensive use in extreme environments. The ultimate combination of function and design.

SKU-7801
Molded Plastic Bed:

- Molded in Side Slots for property box storage and increased structural span strength. Bunk can be reversed-mounted to eliminate property box storage feature.

- Molded in End Shelving for open storage of personal items.

- Durable, one piece, rotationally molded design for increased strength. Constructed of high impact “no break” UV stabilized polyethylene.

- Can be bolted to the floor via concealed pilot holes with hardware of your choice.

- Manufactured to ISO Quality Standards in the USA.

- Stain resistant.

- Easy to clean and maintain.

- Flame Retardant (passes Cal 133).**

- A 10 Year Warranty*.  

*Warranty valid on manufacturing defects only. **Test reports available upon request.

Ideal for use in Correctional Facilities, Behavioral Health Facilities, Mental Health Facilities, Residential Institutions, Treatment Centers, Public Safety Facilities and all Heavy-Use Environments.
Molded Plastic: **Bed 2.0**

Intensive use in extreme environments. The ultimate combination of function and design.

**SKU-7601**

**Molded Plastic Bed:**

- Designed for use with 36x80 Mattress.
- A 10 Year Warranty*.
- Optional side slots for property box storage.
- Angled lowered side rail for easier entry and exit.
- Molded in end shelving for open storage of personal items.
- Durable, one piece, rotationally molded design for increased strength. Constructed of high impact “no break” UV stabilized polyethylene.
- Can be bolted to the floor via concealed pilot holes with hardware of your choice.
- Manufactured to ISO Quality Standards in the USA.
- Stain resistant.
- Easy to clean and maintain.
- Flame Retardant (passes Cal 133).**
- Field installed restraint rings available.

*Warranty valid on manufacturing defects only.
**Test reports available upon request.

Solid side panels are standard. Baracuda Box, Mattress & molded storage slots sold separately.

Ideal for use in Correctional Facilities, Behavioral Health Facilities, Mental Health Facilities, Residential Institutions, Treatment Centers, Public Safety Facilities and all Heavy-Use Environments.
Molded Plastic: **Sleep Surface**

The Molded Plastic Bunk Sleep Surface is designed and manufactured as a temporary sleep surface for intense use.

**SKU-7501**

**The Plastic Sleep Surface:**

- **Durable:** One piece rotationally molded design.
- **Space Saving:** Stack 21 beds in 6.5 vertical feet.
- **Primary (A)** Sleep Surface: 30” x 75” (or smaller) mattresses. Stacks and nests with mattresses less than 3.5” H. 4” full perimeter bunk rail.
- **Secondary (B)** Sleep surface: 25” x 75” (or longer) mattresses. 2” sides only bunk rail for taller individuals.
- **Overall Dimensions:** 82.1” L x 37.2” W x 7.5” H.
- **Weight:** 39lbs.
- **Clean:** with optional factory drilled drain holes and smooth surface for easy cleaning and maintenance.
- **Flame Retardant** (Passes CAL TB133)
- **Fabrication:** Rotationally molded 1 piece design for maximum durability.
  - No seams or holes.
  - Integral full length molded handles on side and ends.
  - Functional use of both primary and secondary sides.
  - Internal and external “span structure” design for maximum strength and minimum deflection under weight when in use.
  - Internally molded structural cones for comfort and durability.
  - Optional factory drilled drain/vent holes using any locations on secondary bunk side.
  - 2 Colors: Gray and Blue
  - Easily fits under most wall mounted bunks.
- **10 Year Warranty.**

**SKU-1207**

**Mattress Material Specifications** *(Sold Separately)*

- **Size:** 30” x 75” x 1.5”
  - Mattress is covered in 10 ounce grey extruded vinyl.
  - The Core is Indratech polyester fibers.
  - Sewn with a locksmith inverted seam.
  - Mattress passes Federal Flammability Standard 16 DFR 1633.

Practitioners of behavioral healthcare know that their patients are at a greater risk of suicide and self-harm than any other patient population.

Safety is a primary concern of therapies used in any psychiatric facility. Behavioral healthcare furniture is important to managing risk appropriately to protect patients, visitors and staff.

Furniture and components can be used as a weapon or a source of hanging or self-harm, therefore, the right furniture that is designed specifically for behavioral healthcare and psychiatric environments is crucial to successful therapies and treatments.

Residential style furniture is typically first choice in behavioral healthcare facilities because feeling like “home” provides therapeutic support through offering patients a comfortable environment where they will be more willing to participate in healing. Since programs often require stays of 5 days or more, patients need to feel comfortable in their surroundings and allow themselves to settle in to their treatment facility as if it were their home.

Sterile, institution-like furnishings can be a distraction to patients and can prevent healing. From the standpoint of safety, eliminating furniture and fixtures that can be broken in to shards that can be used as weapons, preventing contraband and preventing places that could be used for hanging are tall orders but necessary for the best patient results.
**FURNITURE CONCEPTS**

**Molded Plastic: Open Shelf**

Intensive use in extreme environments. The ultimate combination of function and design.

**SKU-7201**

**OPEN SHELF FEATURES:**

- Molded in shelving for open storage of personal items.

Molded Plastic: **Chuckwagon**

*Intensive use in extreme environments. The ultimate combination of function and design.*

Insulated Food Tray Delivery System.

---

**SKU-C-1717**

**Chuckwagon**

This “wagon” is an innovative, insulated, meal tray delivery cart. This cart is manufactured to the highest standards of expected abuse in a correctional environment.

The “wagon”, insulated food tray delivery cart, is a true one-piece molded delivery cart with no seams, no welded walls, no adhesives and no mechanically attached walls. The walls of the cart are filled with high grade insulation for maximum thermal retention. When used with either Rock Food Tray or The X-Tray, the hot stays hot and the cold stays cold!

The “wagon” is also specially formulated with high impact polyethylene for maximum strength and impact resistance. This cart is also chemically resistant to blood, vinegar, chlorine and other hazardous fluids. The two sliding doors are also insulated and as an option, can be locked closed and are removable for cleaning purposes.

- Color: Brown.
- 3 Year Warranty.

---

1. Molded handles on all four sides for easy maneuvering.
2. Tamperproof locking door latch system.
3. Designed with (4) drain holes for easy cleaning.
4. Ribbed top surface holds more trays, beverage servers, wash racks or other items.
5. Highest quality non-marring kingpin-less casters with quick change out design.

---

Molded Plastic: Storage Box

Intensive use in extreme environments. The ultimate combination of function and design.

SKU-3825 (1.5) or SKU-7268 (2.0)

**Storage Box:**

- **"Stack and Nest" Design:** The "Stack" feature allows the user to stack property boxes with or without a lid without crushing the contents of the Box. The "Nest" feature allows the user to nest empty property boxes inside one another by simply turning the empty box 180 degrees. The nest feature saves cost on freight and saves valuable space in facilities.

- Durable, one piece, injection molded design for increased strength.

- Box capacity 1.5 (Regular) and 2.0 cu. ft. (Large).

- **Radius design** • Rounded edges and corners for maximum impact dispersion and resistance.

- Vertical radiused structural columns for maximum strength and impact resistance.

- Flame Retardant.

- **Locking hasp** • Locking hasp on both sides of the box allow the lid to be installed in either direction and still be matched with a locking hole.

- **Stacks** with most other commercially available boxes with the lid on, and many boxes with the lid off.

- **Fabrication:** Fabrication: Manufactured to ISO quality standards with full height molded-in vertical slots every 1-1/4". 1/2" x 7/8" top edge provides maximum strength and durability. Capable of nesting when empty and stacking with or without the lid. Injection Molded.

- **Material:** Injection molded with NO BREAK polypropylene.

- **Color:** Gray, Standard. Custom colors available upon request, and comes as a clear box option.

- **Individual Numbering:** Permanent mold in sequential numbering for effective inmate ID and property control.

- **Options:** Sliding lid. Under Bunk Rail Sets.

**Weight (empty):**
- Regular Box: 6 lbs.
- Large Box: 8 lbs.
- Universal Box Lid: 4 lbs.

**Maintenance:** Easily Cleaned with damp cloth & mild soap solution.

**10 Year Warranty.**

Storage Box Lid: (sold separately)

SKU-9689

- Molded in handles for easy opening and closing.

- Each Box Lid is individually numbered for effective inmate ID and property control.

- Locking hasp hole placement prevents tampering or the introduction of liquids into the Barracuda Box storage area.

- Lid slides open on the short side of the box, allowing access to more of the contents without removing the lid.

- Constructed with high impact "no break" polypropylene.

- Flame Retardant.

- Full perimeter stacking groove for secure stacking of other boxes.

- Lid has full engagement edges on three sides to prevent prying or unauthorized entry when locked.

• Manufactured to ISO Quality Standards.

Your facility's name can also be molded into the Storage Box & Lid!
